Frontend Developer and UI/UX Designer in my final year at SMK IDN Boarding School, with 3rd place at FUSE 2025 (national UI/UX competition), 7+ deployed projects, and frontend teaching experience — all before graduating. Skilled in Tailwind CSS, JavaScript, and Figma.

SKILLS

- Languages:** HTML5, CSS3, JavaScript
- Frameworks & Libraries:** Tailwind CSS, Bootstrap
- UI/UX & Design:** Figma (wireframe, prototype, design system)
- Tools:** GitHub, VS Code, Vercel

AWARDS

- 2nd Winner at Website Development Competition by IDN Boarding School Internal Competition**

Dec 2025

Secured 2nd place among 20 competing teams by engineering a full-featured car rental management website with dynamic booking flows, responsive layouts across mobile and desktop, and a clean component-based frontend architecture — judged on UI quality, code structure, and user experience.
- 3rd Winner at UI/UX Design Competition by FUSE National Competition**

Nov 2025

Placed 3rd nationally at FUSE 2026 (Politeknik Manufaktur Bandung) among designers from across Indonesia, presenting an E-Learning platform UI/UX covering course browsing, discussion forums, leaderboard, and multi-category learning paths — evaluated on information architecture, visual consistency, and user-centered design.
- 2nd Winner at Website Development Competition by IDN Boarding School Internal Competition**

May 2025

Earned 2nd place at IDN Boarding School's internal competition (2025) by designing a mosque community landing page featuring structured program listings, prayer/event schedules, and activity highlights — judged on visual clarity, accessibility standards, and overall readability across devices.

PROJECTS

- Payroll Service Website** [↗](#)
 - Co-developed an internal employee attendance frontend using Laravel and Filament PHP.
 - Designed administrative dashboards that reduced HR data entry time by 40%.
 - Structured automated shift scheduling features and role-based controls via Filament Shield.
- LokalaMart - UMKM E-Commerce Website** [↗](#)
 - Engineered a responsive frontend web platform to showcase 500+ local MSME products.
 - Structured 10+ modular UI components, improving layout rendering efficiency by 25%.
 - Integrated dynamic JavaScript components for real-time search and product filtering.
- Management PT DBJ Website** [↗](#)
 - Designed a comprehensive UI/UX system in Figma spanning 10+ core screens.
 - Structured intuitive dashboards for attendance, leave requests, and payroll modules.
 - Delivered high-fidelity design handoffs with real-time financial analytics visualizations.
- TwiiAhh - Social Media Website** [↗](#)
 - Led the end-to-end UI/UX design process for a collaborative image-sharing platform.
 - Mapped 15+ user-centered journeys for media upload, content exploration, and editing panels.
 - Produced high-fidelity Figma screens with a structured component library to speed up development by 30%.
- UI/UX E-Learning Website** [↗](#)
 - Architected a full-scale online learning platform in Figma covering 33+ screens.
 - Created seamless user flows for course browsing, forums, and a gamified leaderboard.
 - Applied user-centered design principles to ensure cohesive and intuitive navigation workflows.
- IDNDrive - Car Rental Website** [↗](#)
 - Architected the complete responsive frontend layout within a two-person development team.
 - Secured 2nd place out of 15+ competing student teams in a development competition.
 - Optimized responsive grid layouts for seamless vehicle search and booking flows.
- IDNCART - E-Commerce Website** [↗](#)
 - Developed a high-fidelity home decoration web frontend using HTML and Tailwind CSS.
 - Translated complex Figma mockups into clean code, achieving a 100% pixel-perfect match.
 - Accelerated responsive layout loading speeds across mobile, tablet, and desktop devices.

EDUCATION

- Software Engineering (Rekayasa Perangkat Lunak)**

Jul 2024 - Jun 2027

SMK IDN Boarding School (Islamic Development Network)

Focused on web frontend architecture, mobile development, and modern UI/UX design. Applied industry-standard clean code principles and collaborative development practices to deliver responsive, user-centered application prototypes.

WORK EXPERIENCE

UI/UX Designer Intern	Mar 2026 - May 2026
PT Dipuru Berkah Jaya	Indonesia
Designed the full UI/UX for an Employee Attendance and Payroll Management System at PT Dipuro Berkah Jaya (Mar–May 2026), covering 8+ screens including attendance tracking, leave management, and payroll dashboards. Produced wireframes, design system components, and high-fidelity prototypes in Figma; designs were handed off and implemented by the development team within the 3-month internship.	
Web Frontend Trainer	Apr 2026 - Apr 2026
SMAN 32 Jakarta	Jakarta, Indonesia
Delivered a 5-day frontend development workshop at SMAN 32 Jakarta (Apr 2026) covering HTML, CSS, JavaScript, and responsive design fundamentals to a class of 30 students. Guided participants through hands-on project building sessions, resulting in each student completing a working mini-website by end of day. Youngest facilitator at the event, still in vocational school.	
UI/UX Design Trainer	Aug 2024 - Aug 2024
SMKN 1 Cianjur	Cianjur, Indonesia
Delivered a 5-day UI/UX Design training workshop for 27 students, covering Figma, prototyping, and responsive design principles. Guided participants through hands-on project development and mentored students in creating functional mini-app prototypes. Facilitated interactive learning sessions that resulted in a 100% project completion rate among participants. Served as the youngest facilitator at the event while still attending vocational school.
