Frontend Developer and UI/UX Designer in my final year at SMK IDN Boarding School, with 3rd place at FUSE 2025 (national UI/UX competition), 3+ deployed projects, and frontend teaching experience — all before graduating. Skilled in Tailwind CSS, JavaScript, and Figma.

SKILLS

Languages: HTML5, CSS3, JavaScript
Frameworks & Libraries: Tailwind CSS, Bootstrap
UI/UX & Design: Figma (wireframe, prototype, design system)
Tools: GitHub, VS Code, Vercel

AWARDS

- 2nd Winner at Website Development Competition by IDN Boarding School Internal Competition**

Dec 2025

Secured 2nd place among 20 competing teams by engineering a full-featured car rental management website with dynamic booking flows, responsive layouts across mobile and desktop, and a clean component-based frontend architecture — judged on UI quality, code structure, and user experience.
- 3rd Winner at UI/UX Design Competition by FUSE National Competition**

Nov 2025

Placed 3rd nationally at FUSE 2026 (Politeknik Manufaktur Bandung) among designers from across Indonesia, presenting an E-Learning platform UI/UX covering course browsing, discussion forums, leaderboard, and multi-category learning paths — evaluated on information architecture, visual consistency, and user-centered design.
- 2nd Winner at Website Development Competition by IDN Boarding School Internal Competition**

May 2025

Earned 2nd place at IDN Boarding School's internal competition (2025) by designing a mosque community landing page featuring structured program listings, prayer/event schedules, and activity highlights — judged on visual clarity, accessibility standards, and overall readability across devices.

PROJECTS

- UI/UX E-Learning Website** 

Designed a full-scale E-Learning platform in Figma spanning 10+ screens — including course browsing, category-based learning paths, discussion forums, and a gamified leaderboard — applying user-centered design principles to ensure intuitive navigation and a visually cohesive experience from onboarding to course completion.
- Management PT DBJ Website** 

Designed the full UI/UX for a company management system at PT Dipuro Berkah Jaya covering 10+ screens — employee attendance, leave requests, payroll processing, and financial analytics dashboards with real-time income and expense visualizations — delivered in Figma from wireframe to high-fidelity handoff.
- TwiiAhh - Social Media Website** 

Led UI/UX design for a social media image-sharing platform (team project, 2025), covering end-to-end user flows for upload, exploration, editing, and content management. Delivered wireframes, component layouts, and high-fidelity Figma screens that guided the development team in building a responsive, fully functional interface.

EDUCATION

- Software Engineering (Rekayasa Perangkat Lunak)**

Jul 2024 - Jun 2027

SMK IDN Boarding School (Islamic Development Network)
Focused on web frontend programming and UI/UX design

WORK EXPERIENCE

- UI/UX Designer Intern**

Mar 2026 - May 2026

PT Dipuro Berkah Jaya
Indonesia

Designed the full UI/UX for an Employee Attendance and Payroll Management System at PT Dipuro Berkah Jaya (Mar–May 2026), covering 8+ screens including attendance tracking, leave management, and payroll dashboards. Produced wireframes, design system components, and high-fidelity prototypes in Figma; designs were handed off and implemented by the development team within the 3-month internship.
- Web Frontend Trainer**

Apr 2026 - Apr 2026

SMAN 32 Jakarta
Jakarta, Indonesia

Delivered a 1-day frontend development workshop at SMAN 32 Jakarta (Apr 2026) covering HTML, CSS, JavaScript, and responsive design fundamentals to a class of 30 students. Guided participants through hands-on project building sessions, resulting in each student completing a working mini-website by end of day. Youngest facilitator at the event, still in vocational school.
- UI/UX Design Trainer**

Aug 2024 - Aug 2024

SMKN 1 Cianjur
Cianjur, Indonesia

Delivered a 1-day UI/UX Design training workshop for 27 students, covering Figma, prototyping, and responsive design principles. Guided participants through hands-on project development and mentored students in creating functional mini-app prototypes. Facilitated interactive learning sessions that resulted in a 100% project completion rate among participants. Served as the youngest facilitator at the event while still attending vocational school.
